ABOUT DR. KIM

Dr. Kun Kim earned his Doctor of Medicine degree from Emory University School of Medicine in Atlanta, Georgia in 1986. He then completed his post-graduate training in Otolaryngology – Head and Neck Surgery & Facial Plastic Surgery at the National Naval Medical Center in Bethesda, MD. In 1995, Dr. Kim successfully concluded his U.S. Naval service as an attending physician and instructor at Camp Pendleton Naval Hospital where he refined his skills in facial plastic surgery and started his successful private practice in Atlanta.

He is a fellow member of the American Academy of Otolaryngology – Head and Neck Surgery, American Academy of Facial Plastic and Reconstructive Surgery, and the American Academy of Cosmetic Surgery. He is certified by the American Board of Otolaryngology and by the American Board of Facial Plastic Surgery and Reconstructive Surgery.

At Kim Facial Plastic Surgery, we offer a comprehensive array of cosmetic and reconstructive procedures to naturally enhance your appearance and facial harmony. Our state of the art services range from those with absolutely no downtime (e.g., Botox and Restylane) to slightly more intense procedures (Fraxel laser treatments, IPL photofacials, and chemical peels) as well as extensive surgeries (facelifts, rhinoplasties, and etc.) which yield dramatic results.

Dr. Kun Kim, a Board Certified Facial Plastic Surgeon, will personalize your treatment plan according to your needs during a personal consultation. Most

procedures can be conveniently performed in Dr. Kim's in-office, aesthetic-surgical suite where you can enjoy discreet and comfortable treatment from beginning to end.

Dr. Kim and his professional staff provide personalized patient care, gently guiding you through each step of the process, from initial consultation, recovery, and follow-up.

"Cosmetic enhancement has to match you and your personal style. There is no one size fit all" - Kun Z. Kim, M.D.

BACK TO WORK IMMEDIATELY... IF YOU WANT

- 1] Botox injections
- 2] Restylane injections
- 3] Medilux Photofacials - IPL
(acne, aging spots, pigments, etc)
- 4] Medilux permanent hair removal
- 5] Partial incision Asian Blepharoplasties

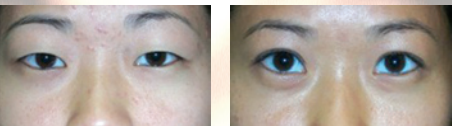

FACELIFT~MAGIC ONE HOUR LIFT

Performed under local anesthesia and light sedation, patients enjoy an ambulatory surgery that is performed within one hour. Most patients are able to return to work in just a few days! This revolutionary procedure is cost effective and low risk when compared to the traditional face lift.

BLEPHAROPLASTY

Dr. Kim is one of few surgeons in the South East where patients from all over the country are visiting to receive Asian blepharoplasty. Doctors from all over the world have come to watch Dr. Kim perform this procedure .

In Asian blepharoplasty, a special technique is used to create a double eyelid crease,

making the eyes appear rounder, softer, and larger, whereas in Caucasian eyelid surgeries, the emphasis is on removing the signs of aging.

TAKE 1-3 DAYS OFF... YOU DESERVE IT

- 1] Fraxel® laser treatments
(wrinkles, scars, pigmentation, resurfacing)
- 2] Erbium laser resurfacing
(complete one step skin rejuvenation)
- 3] Autologous fat injections (most popular!
A natural way to look younger, lasts permanently)
- 4] Facial/Neck liposuctions
- 5] Body lipo-contouring
(power sculpting with tumescence)

SKIN REJUVENATION

Dr. Kim offers a variety of minimally invasive skin rejuvenating procedures to slough off old skin and reveal the younger, vibrant, and glowing skin:

- ~ Fraxel® laser resurfacing
- ~ Erbium laser resurfacing
- ~ chemical peels (TCA peels)
- ~ dermabrasion-surgical
- ~ photodynamic therapy with IPL laser
- ~ Obagi Nuderm and Vit-C systems

AUTOLOGOUS FAT TRANSFER

This has become one of Dr. Kim's favorite procedures to rejuvenate the aging face. Autologous Fat Transfer can restore the lost volume on the patient's face, typically from the under the eyes, laugh lines, and marionette lines.

YOU MAY NEED 10-14 DAYS... YOUR IN-LAWS MAY GET JEALOUS!

- 1] Medium depth chemical peels
- 2] Blepharoplasty (eye lid procedures)
- 3] Rhinoplasty (nose reshaping)
- 4] Full Face lifts
- 5] Mini or Magic face lifts
- 6] Brow lifts (minimal incision or full)
- 7] Chin/Cheek implants
- 8] Other custom procedures

RHINOPLASTY

Dr. Kim feels that no two rhinoplasty procedures are alike. He tailors each procedure in order to shape the nose to fit the patient's face.
